

COMPELLED TO SINK THE SHIP

**Mutiny on Cruiser Tennessee
Quelled by Marines With
Loaded Guns.**

**Men Balked at Quality of Rations Is-
sued and Refused to Work Until
Forced to do so at the Point
of Guns in Hands of
Savior Lads.**

Norfolk, Va.—Men from the cru-
iser Tennessee and Washington,
which conveyed President Roosevelt
on his trip to Panama and back,
while in Norfolk on Thursday de-
clared that the alleged mutiny on the
Tennessee occurred while the cruiser
was being coaled on the isthmus for
the return trip homeward, and not
during the trip.

They said the men on the Ten-
nessee, alleging poor and unsatisfac-
tory rations, refused to coal the ship.
The marine guard was ordered out
and, according to the men here, the
marines stood with pointed guns
threatening to shoot the first man
who quit his post during the coaling
of the cruiser. The coaling was in
this way completed and as a result of
the alleged mutiny 100 men were
placed in the brig. These however,
according to the report, were re-
leased when the homeward start was
begun. All is now declared to be
quiet on the cruiser Tennessee.

BAD WRECK IN SOUTH.

**President Spencer of Southern Rail-
way and Five Others Meet Death.**

Lynchburg, Va.—Samuel Spencer,
president of the Southern Railway
company, and recognized as one of
the foremost men in the development
of the southern states, and six other
persons were killed and eleven
others injured early Thursday morn-
ing in a rear end collision between
two fast passenger trains ten miles
south of Lynchburg and a mile north
of Lawyer's depot. Philip York, was
among the killed, together with other
guests of Mr. Spencer. Of those on
Mr. Spencer's car, only Mr. Spencer's
private secretary, E. A. Merrill, of New
York, and one of the three porters,
survived the accident.

The collision was between the
Jacksonville express and the Wash-
ington and Southwestern limited,
both southbound. President Spencer
and his entire party, as far as known,
were sleeping when the collision oc-
curred, and the probabilities are that
all of them were killed instantly. It
is certain that life was extinct before
the flames touched them. President
Spencer's body was burned almost be-
yond recognition.

Hunter Meets Tragic Death.

Salt Lake City.—A pall was thrown
over the Thanksgiving sport at the
rabbit hunt at Cedar valley Thurs-
day afternoon by the tragic death of
Albert M. Zachreson of 108 Lincoln
avenue, who was killed by the ac-
cidental discharge of his gun. As Zach-
reson was alighting from the wagon
he pulled his shotgun out, taking hold
of the barrel. As he pulled the
weapon toward him the hammer
caught on the box of the wagon and
the cartridge in one of the barrels
was discharged, the full charge strik-
ing the young man in the left side.
He fell to the ground dead.

HERDER FROZEN TO DEATH.

**Stories of Recent Storm in New Mex-
ico Coming in.**

El Paso, Tex.—A special to the
Herald from Carlsbad, N. M., says
that 1,000 sheep belonged to A. J.
Crawford, perished in a canyon near
there during the recent snowstorm,
and a Mexican herder was frozen to
death. An Alamogordo special says
the loss of goats from the severe
weather in Otero county was very
severe, as the animals had just been
sheared. The Prathers lost 2,200 head
out of 2,500.

Whole Crowd Missing.

Vancouver, B. C.—One man and
two French parties are reported as
being lost in the wilds on Thurlow Is-
land, in Chancellor channel, British
Columbia. George Brown an employe
at logging camp K, on Thurlow Is-
land, was missed by his fellow work-
men last Saturday. On Sunday a
search party was formed to look for
him. When no word of Brown or
the searchers was received on Sun-
day or Monday, a second searching
party started out. No word of any of
these men has so far been received.

Laughed at Wrong Time.

Klamath City, Okla.—W. P. Dil-
worth was shot and probably fat-
ally wounded in his hardware store
here. A stranger entered the store
and asked to see a revolver. He then
asked for cartridges, which he put
into the revolver and turned it on the
clerk, telling him to hold up his hands
and turn over the cash in the drawer.
Mr. Dilworth was also told to hold up
his hands. Thinking it a joke, Dil-
worth laughed at him, when the man
began to shoot.

COMMISSION CLOSES ITS WORK IN SALT LAKE CITY

**Utah Coal Companies on the Grill and
Sensational Evidence Secured
Against These Corporations.**

Salt Lake City.—The conclusion of
the interstate commerce commission
on Friday was no less sensational
than the entire proceedings have been.
The Utah Fuel and allied coal com-
panies were on the grill, and the evi-
dence secured against these corpora-
tions was uglier, if possible, than that
secured against the Union Pacific
railroad and coal companies at the
September hearings.

It was asserted by witnesses on Fri-
day that the Utah Fuel and allied
companies with the Rio Grande rail-
road system, not only secured control
of the coal deposits of Utah by Win-
chester persuasion, but for years held
full sway over the wires of the West-
ern Union, thus holding all possible
means of getting relief which might
be sought by the would-be independ-
ent producer.

Testimony was submitted which
showed that the combine of Rio
Grande and Rio Grande Western and
their allied coal companies secured
the largest portion of the vast coal de-
posits in southern Utah; owned the
only means of transportation, thus
controlling the supply on Utah mar-
kets, and was dictator supreme of the
Utah coal situation.

Armed thugs, it was asserted, were
hired by the coal companies in Car-
bon and other counties to keep off
any would-be independent producers,
and these thugs played their part well.
Shooting was common during the
fights and fights over possession of
coal lands and the courts were laughed
at by the men placed in charge of the
deposits.

Secret rates were described. Charles
Livingston, a former employe of the
Utah Fuel company, asserting that his
company enjoyed a one-half cent per
100 pounds per mile rate on freight.
This rate, which was far below the
regular tariff rate, was enjoyed until
August of the present year.

NEWHOUSE INVESTS 5 MILLIONS.

**Millionaire Mine and Smelter Owner
Shows His Faith in Utah.**

Salt Lake City.—The most gigantic
individual deal in commercial real es-
tate ever attempted in Salt Lake City
and one of the most important and
significant transactions of its kind the
west has known in years was con-
summated here Friday night, when
Samuel Newhouse, the multi-million-
aire mining magnate of this city, se-
cured the final option that gives him
control of practically a complete half
block of property in the heart of Salt
Lake's retail business district and
three big corners outside the block in
its immediate vicinity—in all three
quarters of a mile of business street
frontage and eleven downtown busi-
ness corners.

The deal involves a consideration of
\$1,000,000, to be paid out in cash for
the property now held under option by
Mr. Newhouse within the next sixty
days; the expenditure of \$5,000,000 in
improving the property, including the
erection of two sky-scrapers, and finally
the immediate acquisition of more
property in the vicinity of the half
block purchase.

State Funeral at Boise.

Boise, Ida.—The funeral of the late
Frank W. Hunt, former governor of
the state, was held Friday, all the
honors that were due because of the
position he had held being extended.
From 10 to 2 o'clock the remains lay
in state in the capitol guarded by a
detail of the United States troops and
representatives of the Knights Tem-
plar. At 2 o'clock the remains were
removed to St. Michael's Episcopal
cathedral. Bishop Funston delivered a
short address, after which the service
of the Knights Templar was read.

Cotton Exchange Opened.

Liverpool.—The Prince of Wales,
who was accompanied by the princess,
on Friday opened the new cotton ex-
change here, a handsome building
which has just been completed at a
cost of \$1,750,000. In his speech the
prince referred to the efforts being
made to develop the cultivation of
British grown cotton with the object
in view of making the British cotton
spinners partially independent of for-
eign supplies, and said he had fol-
lowed the developments with great in-
terest and hoped the movement ulti-
mately would be successful.

Killed by Falling Walls.

San Francisco.—Eddie Cuneo, aged
11, was killed, and his companion,
Joseph Castro, aged 10, was badly
injured Friday afternoon by falling
bricks which were blown from the
top of one of the ruined walls of the
Palace hotel. The bricks fell on the
Market street side and immediately
after the accident the police stretched
ropes across the street for the purpose
of preventing further accidents. As
a result the cars running on Market
street were tied up for some time.

Wreck Caused by Operator.

Lynchburg, Va.—The cause of the
awful wreck near Lawyers station
ten miles south of this city, Thursday
morning, in which President Samuel
Spencer and his party of prominent
New York and Baltimore men lost
their lives, is laid absolutely at the
door of C. D. Mattox, the operator
who was in charge of the block tele-
graph station at Rangoon. Mattox,
who disappeared after being relieved
less than one hour after the accident
has not been found.

TEN YEARS OF PAIN.

**Unable to Do Even Housework Be-
cause of Kidney Troubles.**

Mrs. Margaret Emmerich, of Clinton
street, Napoleon, O., says: "For fif-
teen years I was a
great sufferer from
kidney troubles. My
back pained me ter-
ribly. Every turn
or move caused
sharp shooting
pains. My eyesight
was poor, dark
spots appeared be-
fore me, and I had
dizzy spells. For
ten years I could not
do housework, and
for two years did not
get out of the house.
The kidney secre-
tions were irregular,
and doctors were not
helping me. Doan's
Kidney Pills brought
me quick relief, and
finally cured me. They
saved my life."

High Position for Admiral.

Rear Admiral Willard H. Brownson,
who has just taken command of the
American naval forces in the East,
will, it is understood, soon be recalled
to take what has become to be regard-
ed as the most important post in the
navy—namely, chief of the bureau of
navigation. Admiral Brownson would,
in the usual course, be placed on the
retired list next year on account of
old age, but owing to his excellent
physical and mental condition it is un-
derstood he will continue at the head
of the navigation bureau at least dur-
ing the present administration.

Keep in Good Health.

There are many thousands of people
all over the world who can at-
tribute their good health to taking one
of two Brandreth's Pills every night.
These pills cleanse the stomach and
bowels, stimulate the kidneys and
liver and purify the blood. They are
the same fine laxative tonic pills your
grandparents used, and being purely
vegetable they are adapted to children
and old people, as well as those in
the vigor of manhood and womanhood.
Brandreth's Pills have been in use
for over a century and are for sale
everywhere, plain or sugar-coated.

To Represent Italy and Spain.

The two great Catholic countries of
Europe, Italy and Spain, are sending
new ambassadors to the court of St.
James. The marquis di San Giuliano,
who will represent Italy, is compara-
tively a young man. He comes of an
old Sicilian family of Norman descent,
and is highly cultured, having traveled
extensively with good results. He is
an enthusiastic student of Dante, and
is president of the Italian Geographical
society. Senor Villa Urrutia, the new
Spanish ambassador, accompanied
King Alfonso to London on the mo-
mentous occasion that ended in his
engagement to Princess Ena, and won
golden opinions for his tact and cour-
tesy during that visit.

Japan's Empress Popular.

It is doubtful if any royal consort is
more loved by her people than is the
empress of Japan. Educated accord-
ing to feudal ideas and skilled in all
the accomplishments befitting one of
her social eminence, her majesty
strongly favors the broadness of the
new education for women and from
her private purse gives large sums
toward the maintenance of women's
schools and universities. During the
war with Russia the empress visited
the hospitals many times and every
day passed hours making bandages.
The effect of these bandages upon the
wounded soldiers has been of deep in-
terest to medical and scientific men
for the soldiers honored by them
seemed to rally under a peculiar men-
tal influence. All other bandages were
destroyed after their first use; those
made by the empress were sterilized
and used again for the simple reason
of their effect on the recovery of the
soldiers.

LIKE A FAIRY TALE.

**The Story of Postum Cereal in Words
and Pictures.**

The growth of the Postum Cereal
Co. is like a fairy tale, but it is true,
every word of it.

"The Door Unbolted" is the title of
a charming little booklet just issued
by the Company which tells, and il-
lustrates, the story of this remark-
able growth. It takes the reader from
the little white barn in which the
business was started Jan. 1, 1895,
through the palatial offices and great
factory buildings of the "White City"
that comprise Postumville, Battle
Creek, Mich.

The little white barn, so carefully
preserved, is a most interesting build-
ing, for it represents the humble be-
ginning of one of the country's great-
est manufacturing enterprises of to-
day, an enterprise that has grown
from this little barn to a whole city
of factory buildings within but little
more than ten years.

No less interesting is the quaint of-
ficial home of the Postum Cereal Co.
The general office building of Mr. Post
and his associates is a reproduction of
the Shakespeare house at Stratford-
on-Avon, and upon the house and its
furnishings has been expended vast
sums of money, until the rooms are
more like the drawing rooms of the
mansions of our multi-millionaires
than like offices.

That Mr. Post has believed thor-
oughly in the idea of giving to his
employes attractive and healthful
work rooms is proven not only by the
general office building of the Company
and its furnishings, but by his fac-
tories as well, and of all these things
this beautiful little booklet tells the
interesting story. It will be sent
to anyone on request.

BOY'S HEAD ONE SOLID SORE.

**Hair All Came Out—Under Doctor
Three Months and No Better—
Cuticura Works Wonders.**

Mr. A. C. Barnett, proprietor of a
general store in Avar, Oklahoma,
tells in the following grateful letter
how Cuticura cured his son of a ter-
rible eczema. "My little boy had ec-
zema. His head was one solid sore,
all over his scalp; his hair all came
out, and he suffered very much. I
had a physician treat him, but at the
end of three months he was no bet-
ter. I remembered that the Cuticura
Remedies had cured me, and after
giving him two bottles of Cuticura
Resolvent, according to directions,
and using Cuticura Soap and Oint-
ment on him daily, his eczema left
him, his hair grew again, and he has
never had any eczema since. We use
the Cuticura Soap and Ointment,
and they keep our skin soft and
healthy. I cheerfully recommend the
Cuticura Remedies for all cases of
eczema. A. C. Barnett, Mar. 30,
1905."

Wrong Method of Teaching.

Consul Paul Nash, of Venice, writes:
"Hundreds of well-educated Americans
annually pass through Venice and, al-
though probably nine-tenths of them
have had several years of instruction
in a European language, not one-
tenth are capable of speaking a dozen
connected words of anything but Eng-
lish. Even college graduates, fresh
from prize-winning in French or Ger-
man, are generally unable to speak
either language, although capable of
writing an excellent thesis on their
history, philology, syntax and litera-
ture. This is the result of teaching
French and German in much the same
way that Latin and Greek are taught."

Wife Desertion Alarms.

So many Cincinnati wives have been
deserted by their husbands of late that
the city council has taken steps to-
ward putting a check on such run-
aways. It has been found that mort-
gage loan sharks are contributing fac-
tors in a great many cases. A man's
ability to mortgage his furniture with-
out the knowledge of his wife is a
strong temptation to husbands of weak
will. An ordinance has been intro-
duced making such mortgage of no
avail unless they bear the signature of
both husband and wife.

Autos in German Army.

The German Volunteer Army Corps
is provided with 37 automobiles in
charge of uniformed drivers, which
carry staff officers to and fro. In the
maneuvers last month the speed and
convenience of the machines were
highly praised by the tacticians who
watched the developments of the
mimic campaign.
